

FOR IMMEDIATE RELEASE

HUB Tech Recognized on CRN's 2022 MSP 500 List

South Easton, MA, February 22, 2022 — HUB Technical Services, LLC. announced today that [CRN®](#), a brand of [The Channel Company](#), has named HUB Tech to its Managed Service Provider (MSP) 500 list in the MSP Pioneer 250 category for 2022. CRN's annual MSP 500 list identifies the leading service providers in North America whose forward-thinking approaches to managed services are changing the landscape of the IT channel, helping end users increase efficiency and simplify IT solutions, while maximizing their return on investment.

With many customers still recovering from the impact of the ongoing pandemic, MSPs have become a vital part of the success of businesses worldwide. MSPs not only empower organizations to leverage intricate technologies but also help them keep a strict focus on their core business goals without straining their budgets.

The annual MSP 500 list is divided into three sections: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on- and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premises and cloud-based security services.

As a proven IT solutions provider for over 25 years, "HUB Tech provides tailored, packaged IT service offerings to secure any organization's environment from outside threats and to provide the active management and oversight you need to ensure your IT environments have maximum uptime for your users, both remote and on-premise, said HUB Tech President, Joseph Lovetere. Our HUBcare keeps you Connected, Managed and Secured"

"In addition to having to adjust their own business operations to account for the changed conditions during the pandemic, MSPs have also seen increased demand for their managed communications, collaboration and security services," said Blaine Raddon, CEO of The Channel Company. "The solution providers on our 2022 MSP 500 list deserve credit for their innovative and game-changing approaches to managed services in these unpredictable times, as well as their ability to optimize operational efficiencies and systems without straining IT budgets."

"We are proud to be recognized again in 2022 by CRN magazine as an MSP Pioneer 250 for our growth and continued customer satisfaction," Lovetere said. "We attract top talent and are proud of the incredible support team we have built, allowing us to provide the very best Managed IT Services to support our client's IT needs."

The MSP 500 list will be featured in the February 2022 issue of CRN and online at www.crn.com/msp500.

About HUB Tech

HUB Tech has been a trusted IT Solutions Provider for almost 30 years. As a trusted advisor within all industries, we work beside you to ensure you have a strategy that allows you to transform your information to keep up with the needs of your organization and your users. We have developed proprietary tools, strategies, and methodologies which have enabled us to lower cost and increase the quality of service to our client base.

As a Strategic Partner and industry-leading Managed Services provider, HUB Tech offers a comprehensive, end-to-end IT solutions portfolio of IT solutions in 3 key areas:

- HUBcare Managed Services, a custom suite of services to completely manage your environment with the latest proven solutions
- IT infrastructure design, implementation and Security analysis/policy development for Cloud and On-premise Network infrastructure
- IT Asset Management to handle the purchase and rollout of any Endpoint/End-user equipment with Imaging, Asset tagging, Deployment/Refresh and Security sanitization of retired Desktops, Laptops and Workstations.

Our mission is simple – to take full ownership for all that we do, to protect those who trust in us, and to make lifelong clients from every customer contact.
