HPE Store More Guarantee
For HPE Nimble Storage All Flash Arrays

Store more data per terabyte of flash storage than other all flash arrays — guaranteed.

Key benefits:
HPE Store More Guarantee provides assurance that you are receiving the highest all flash capacity efficiency vs. other all flash arrays without compromising resiliency. In fact, HPE Nimble Storage All Flash Arrays deliver up to 20% more usable capacity before advanced data reduction (deduplication and compression) is applied.¹

Why we can make this guarantee:
HPE Store More Guarantee is backed by a 20% capacity guarantee. HPE Store More Guarantee is backed by a 20% capacity guarantee. HPE Store More Guarantee is backed by a 20% capacity guarantee.

Solve Inflated Capacity Demands with All Flash Storage

[Download Our Solution Brief](#)

Data will always be a necessary evil, and capacity requirements are growing faster than most businesses can keep up. With HPE Nimble Storage All Flash Arrays, powered by Intel® Xeon® Scalable processors, you can pack more production data per terabyte than other competitive all flash arrays.

The HPE Store More Guarantee provides assurance that you are receiving the highest all flash capacity efficiency vs. other all flash arrays without compromising resiliency. In fact, HPE Nimble Storage All Flash Arrays deliver up to 20% more usable capacity before advanced data reduction (deduplication and compression) is applied.¹

The predictive analytics of HPE InfoSight, which comes with all HPE Nimble Storage arrays, proactively monitors capacity to deal with inflated capacity demands before they're a problem.

In [our new solution brief](#), we detail how and why HPE Nimble Storage can bring your business the capacity, resiliency, and reliability you need to compete in today's world of data explosion.

Lets Work Together on Your All Flash Storage Solution

A trusted advisor to over 500 state agencies, cities, towns, and companies to help build, implement, and manage their networked systems and applications, HUB Tech has been delivering IT solutions to state and local Massachusetts government entities since 2003.

Boost Cybersecurity with Managed Services

Did you know your organization could be subject to data breach notification laws and possible fines for data breaches and losing sensitive client data? [The exact laws and regulations do vary by state and industry](#), among other factors. But the fact remains that poor cybersecurity can lead to grave consequences, either financial or for your reputation.

Common sense advice is that any organization should establish and maintain a plan for managing cybersecurity risks.

How to secure your passwords

used with permission from Norton by Symantec

Let's face facts: it's easy to forget passwords. People often use simple words, such as a pet's name, or easy-to-remember dates such as a wedding anniversary. A hacker could try your name, children's names, birthdates and pets' names as passwords to get access to your computer. When they get lucky, your ID, privacy and financial security are all up for grabs.

The significance of employing secure passwords is subsequently more important than ever.

Seasonal Changes Present Ideal Time to Review Emergency Preparedness

by Bridget Weston Pollack

As summer turns to fall, it's easy to get caught up in seasonal activities like choosing Halloween costumes, picking apples and pumpkins, or for small business, even getting ready for the hustle and bustle of the holiday season.

But if a disaster struck your business, would you be ready? Seasonal changes provide an ideal time to check your business's emergency preparedness plans, especially for weather-related emergencies. FEMA reports that between 40 and 60 percent of small businesses never reopen following a disaster. Blocking out some time on a quarterly basis to think proactively about unexpected and unfortunate events can help your business stay strong through difficult times.

Dont Wait for a Disaster to Happen.

Monthly Quote

"October gave a party;
The leaves by hundreds came,-
The Ashes, Oaks, and Maples,
And leaves of every name.
The sunshine spread a carpet,
And every thing was grand;
Miss Weather led the dancing;
Professor Wind, the band...."
